

K-LOVE is an important part of my day and hearing that it could be removed in my area is very disappointing to me. K-LOVE is just like its motto says, Positive and Encouraging. If more people listened to it every day, I think they would notice a change in their overall mood. We have enough varieties of secular stations, which I also like, but not enough stations like K-LOVE. We are constantly hit with people trying to take away the Christian influence. Well, it is my right also as a citizen to have a station like K-LOVE to listen to. K-LOVE is a medium that may be the only exposure to salvation that some people get - how could you take that away? Please do not allow the LPFM stations to bump wonderful stations such as K-LOVE.
